Construction:

The **Model B-CC Carcass Crusher** from Berry Plumbing & Equipment Company is manufactured entirely of stainless steel for long life durability and easy cleanup.

Operation:

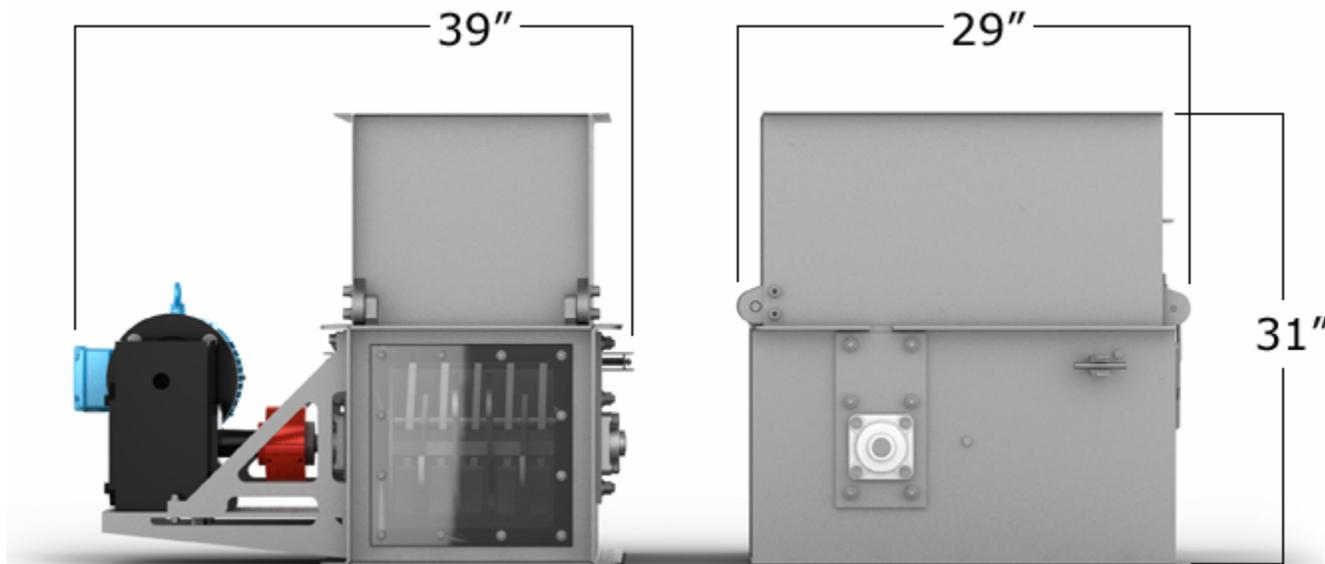

The **B-CC Carcass Crusher** is direct gear driven with interlocking safety switches.

Maintenance:

Great care is taken to assure that the Carcass Crusher is manufactured with smooth rounded surfaces and easily removable covers, making clean up easy. Checking safety switches for correct operation and lubrication of bearings is the extent of required maintenance.

Options:

The Carcass Crusher is also available in a configuration specially designed for crushing turkey carcasses.
